5 Colour Indicator Lights

The Air Purifier can detect the air environment and show different colours in terms of different air quality

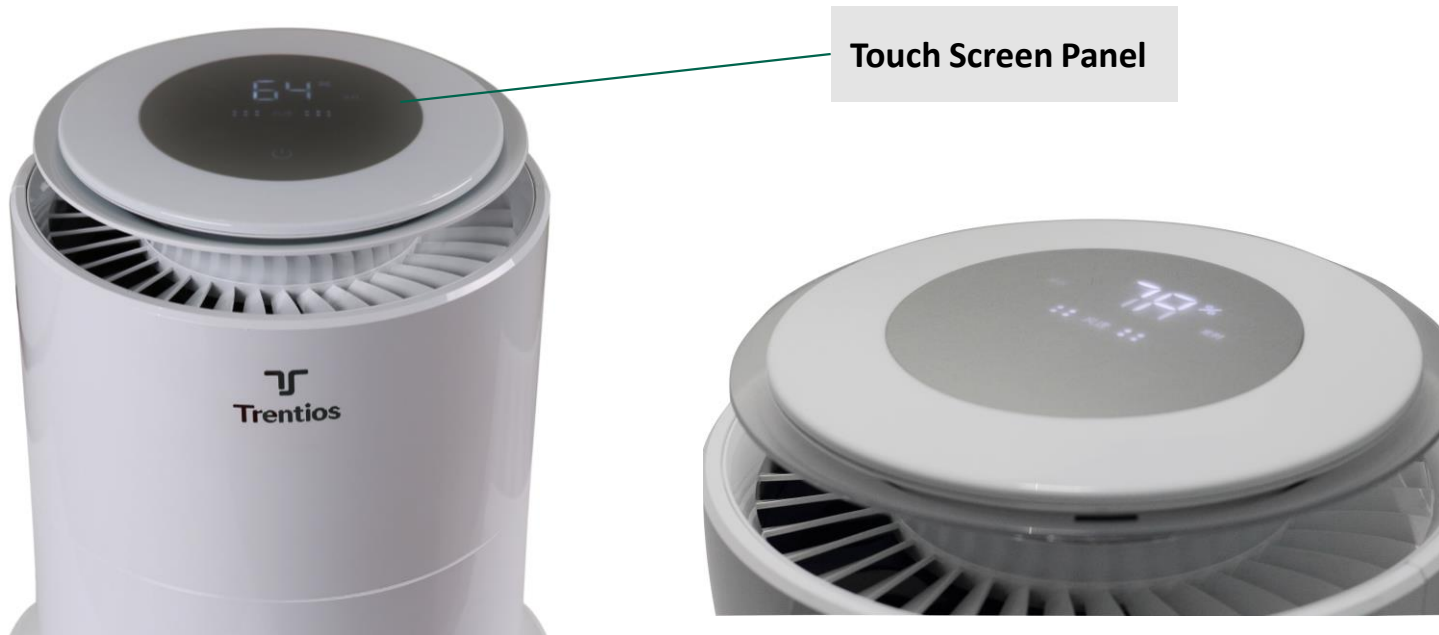

1. When the air quality is excellent, the green light is on
2. When the air quality is good, the dark blue light is on
3. When the air quality is mildly polluted, the blue light is on
4. When the air quality is moderately polluted, the purple light is on
5. When the air quality is severely polluted, the red light is on

5 Colours Petal Breathing light

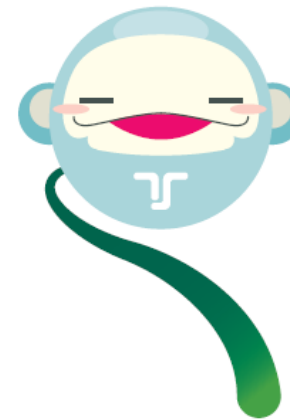

Touch Screen Panel

- Stylish design with touch screen not found in other brands in the market
 - Includes room temperature indicator and humidity indicator

360° Coverage

- Cylindrical shaped air purifier
 - Provides 360° coverage
 - Safer for classroom use for students due to its round edges compared to other brands that are rectangular-shaped (pointed edges)
- Provides purified air in all directions unlike other brands which only has one-direction air flow

360° coverage
unlike other
brands!

Specifications

Air Purifier	
Power source	220V~50 Hz
Power consumption	38 W
Dimensions	376 diameter x 433 height
Weight	7.8 kg
Noise Level at various speeds	25/33/40/45/50 dB(A)
Clean Air Delivery Rate	179 cfm
